LASH® Tile Leveling System

BRUTUS

Available in 2 Sizes:

A

B

A + B for 3/16 in. to 7/16 in. tile

For perfect tile-to-tile leveling

The patented LASH® Tile Leveling Clips system is designed for quick installation and reduces costly call backs by insuring that the finished floor surface is lippage-free.

This time-saving system helps adjust the height of the tiles and evenly holds their edges throughout the curing process of the setting material.

- Durable nylon construction for a secure installation
- High-visibility yellow wedges are easy to distinguish on the job site
- Specially designed break-off point on clips for swift removal
- Produces 1/16" joint spacing
- May be combined with regular tile spacers for wider joints - up to 1/4"
- Wedges are reusable

Advantages to the installer:

- Very easy to learn and use at any skill level
- Great for use with tiles of varied thickness
- Requires minimal effort to install and remove
- Virtually eliminates lippage
- Prevents tile from moving during the installation
- Speeds up installations
- Less time at the job = more jobs in one day = more profit
- Decreases call-backs due to poor installation

BULLS•EYE 2-in-1 Tile Spacers

BRUTUS

Spacer wings fit perfectly on corner and angle applications!

87067BR

87068BR

Two Spacers In One!
Offers the option of two different grout joint widths

Bulls•Eye Spacers are an economical and user-friendly solution for creating evenly spaced grout joints. The unique, patented design keeps the spacers out of the thinset and provides a clear view of grout lines and corners.

One Spacer does the job of four traditional spacers thus reducing the amount of total spacers needed for each job.

Each bag of Spacers comes with 100 spacer rings and 50 mini-wing spacers for use on corners along walls and angles. These spacers are easy to remove, reusable and perfect for floor and wall tile applications.

These spacers provide an unobstructed view of grout lines for dead on accuracy.

- Helps install tiles quickly and precisely
- One replaces four conventional style spacers
- Open center design allows the installer to instantly align tile corners
